

Setting Up Your Solar Monitoring (Sol-Ark)

Congratulations on your new Solar System! Now that your system is up and running there is **one more thing** to do before you can monitor your system. With a Sol-Ark Inverter you must create an account with the **Power View Monitoring Platform**.

- First, go to <https://pv.inteless.com/login>
- Once on this page, click **“Register”**

- Input your email, enter the verification code sent to your email, and create a password for your account.
- Once the Account is activated, Please **Notify Solar First**.
- Solar First will then send you access to your solar system.
- We advise you to download the app on your phone, named **“PV Pro”**
- Any further inquiries, please contact **CustomerCare@solarfirst.us**
